PROFILE

Fresh graduate in Information Systems from Universitas Pembangunan Nasional “Veteran” Jawa Timur with experience gained through internships, training programs, and academic projects. Possesses a solid foundation in problem solving, data handling, and digital tools, supported by strong communication, leadership, and teamwork skills. Highly motivated, adaptable, and eager to learn, with openness to exploring new roles and opportunities across various industries.

EDUCATION

Bachelor's Degree in Information Systems

2021 – 2025

GPA: 3.65 / 4.00

Universitas Pembangunan Nasional “Veteran” Jawa Timur

INTERNSHIP EXPERIENCE

PT Lentera Bangsa Benderang (BINAR Academy)

Feb 2024 – Jul 2024

Frontend Developer Intern

- Implemented responsive web interfaces using HTML5, CSS3, Bootstrap, and Tailwind CSS.
- Developed dynamic web applications using React.js, Redux, Redux Thunk, and RESTful APIs.
- Implemented authentication and authorization using JWT and OAuth 2.0.
- Deployed applications using Vercel and CI/CD pipelines.
- Collaborated within an Agile Scrum team using GitHub for version control (branching, merging, and conflict resolution).
- Contributed to the development of a flight booking web application.

Bangkit Academy 2023 by Google, GoTo, & Traveloka

Aug 2023 – Dec 2023

Backend Developer Intern (Cloud Computing)

- Designed and implemented scalable database architecture to support application growth.
- Developed logging, monitoring, and alerting systems using Google Cloud Dashboard.
- Configured Google Cloud Storage and managed application data services.
- Ensured secure and reliable application deployment using cloud based infrastructure.

PROJECT EXPERIENCE

NGEFLYY – Flight Booking Web Application

Jun 2024 – Jul 2024

- Developed the front-end of a flight booking web application using React.js and Tailwind CSS.
- Designed a modern, responsive, and cross device compatible user interface.
- Implemented core features including user login, flight booking, and checkout functionality.
- Deployed the application on Vercel.

MEETFLIX – Movie Web Application | [LINK](#)

May 2024

- Independently developed a movie web application using React.js.
- Implemented API data fetching from IMDB to display dynamic and up to date movie information.
- Designed a responsive and user friendly interface.
- Deployed the application on Vercel.

Pesona Pusaka Mobile Application | [LINK](#)

Oct 2023 – Dec 2023

- Designed and implemented scalable database architecture to support application features.
- Built logging, monitoring, and alerting systems using Google Cloud Dashboard.
- Configured Google Cloud Storage and managed application data services.
- Collaborated with Mobile Development and Machine Learning teams for system integration.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Sistem Informasi – UPN “Veteran” Jawa Timur

Jul 2022 – Jul 2022

Creative Division, Gradasi 2022

- Designed consistent and visually engaging Instagram feed layouts.
- Created event banners and digital promotional materials.
- Designed certificates for official events and achievements.
- Developed Canva templates for speaker presentation materials.

COURSE & TRAINING EXPERIENCE

Bangkit Academy 2023 by Google, GoTo, & Traveloka

Aug 2023 – Dec 2023

Cloud Computing Cohort – Batch 2

- Completed structured asynchronous learning through Dicoding Academy, Coursera, and Google Cloud Skills Boost.
- Earned more than 33 international certificates related to cloud computing and backend development.
- Developed backend systems for a capstone project using MySQL, JavaScript, Node.js, and Google Cloud Platform.
